Subject: Hydro-EVE standard

Hi Mark,

You should be receiving the Hyro-EVE standard tomorrow as we shipped this out today.

<https://www.fedex.com/apps/fedextrack/?action=track&tracknumbers=669353660470&clienttype=ivshpa1rt>

Just to be sure, it's a 0.1% (w/w) in water. More specially, it's the Hydro-EVE acid, which has MW 428.08 (we monitored 427 --> 282.9 transition).

Please let me know if more info is needed and I look forward to meeting up with you at Boston this weekend.

Best Regards,
Lam
